

Overview of Speaking Points for Laurier PAC's presentation on TMH to the VSB Standing Committee II
December 13, 2017

Thank you for the opportunity to address this Standing committee of the VSB.

Temporary Modular Housing will be built across Heather Street from Laurier elementary.

We have heard that there will be residents with high service needs and addiction and mental health issues. As they will be living in a very small space, and the school grounds are an open space in very close proximity we think there is reasonable chance residents will be on school grounds at some time. We are requesting a report of preparation steps the VSB is taking in preparation. Areas of concern include student/staff safety, protection of property and participation in community advisory committee.

We would also like an update on the community conversation the permit requires the city to work with the VSB to convene.
